PROFILE

- To secure a position in a reputable and dynamic organization where I can leverage my excellent salesmanship and communication skills to effectively engage and convince customers, while utilizing my education and experience to contribute to the growth of the company and advance my professional career in a competitive environment.

EXPERIENCE

- Developed detailed 3D models for architectural projects, including residential, commercial, and industrial buildings.
- Created product models for consumer electronics, furniture, and various other products, ensuring high accuracy and attention to detail.
- Utilized 3ds Max to create and refine 3D assets, implementing complex geometries and realistic textures.
- Collaborated with architects, designers, and engineers to ensure models met artistic and technical specifications.
- Implemented feedback from clients and project managers to achieve the desired aesthetic and functional outcomes.
- Optimized models for performance and compatibility with various rendering engines and visualization tools.
- Created textures and materials using tools like Substance Painter and Photoshop.
